

oikon LAW

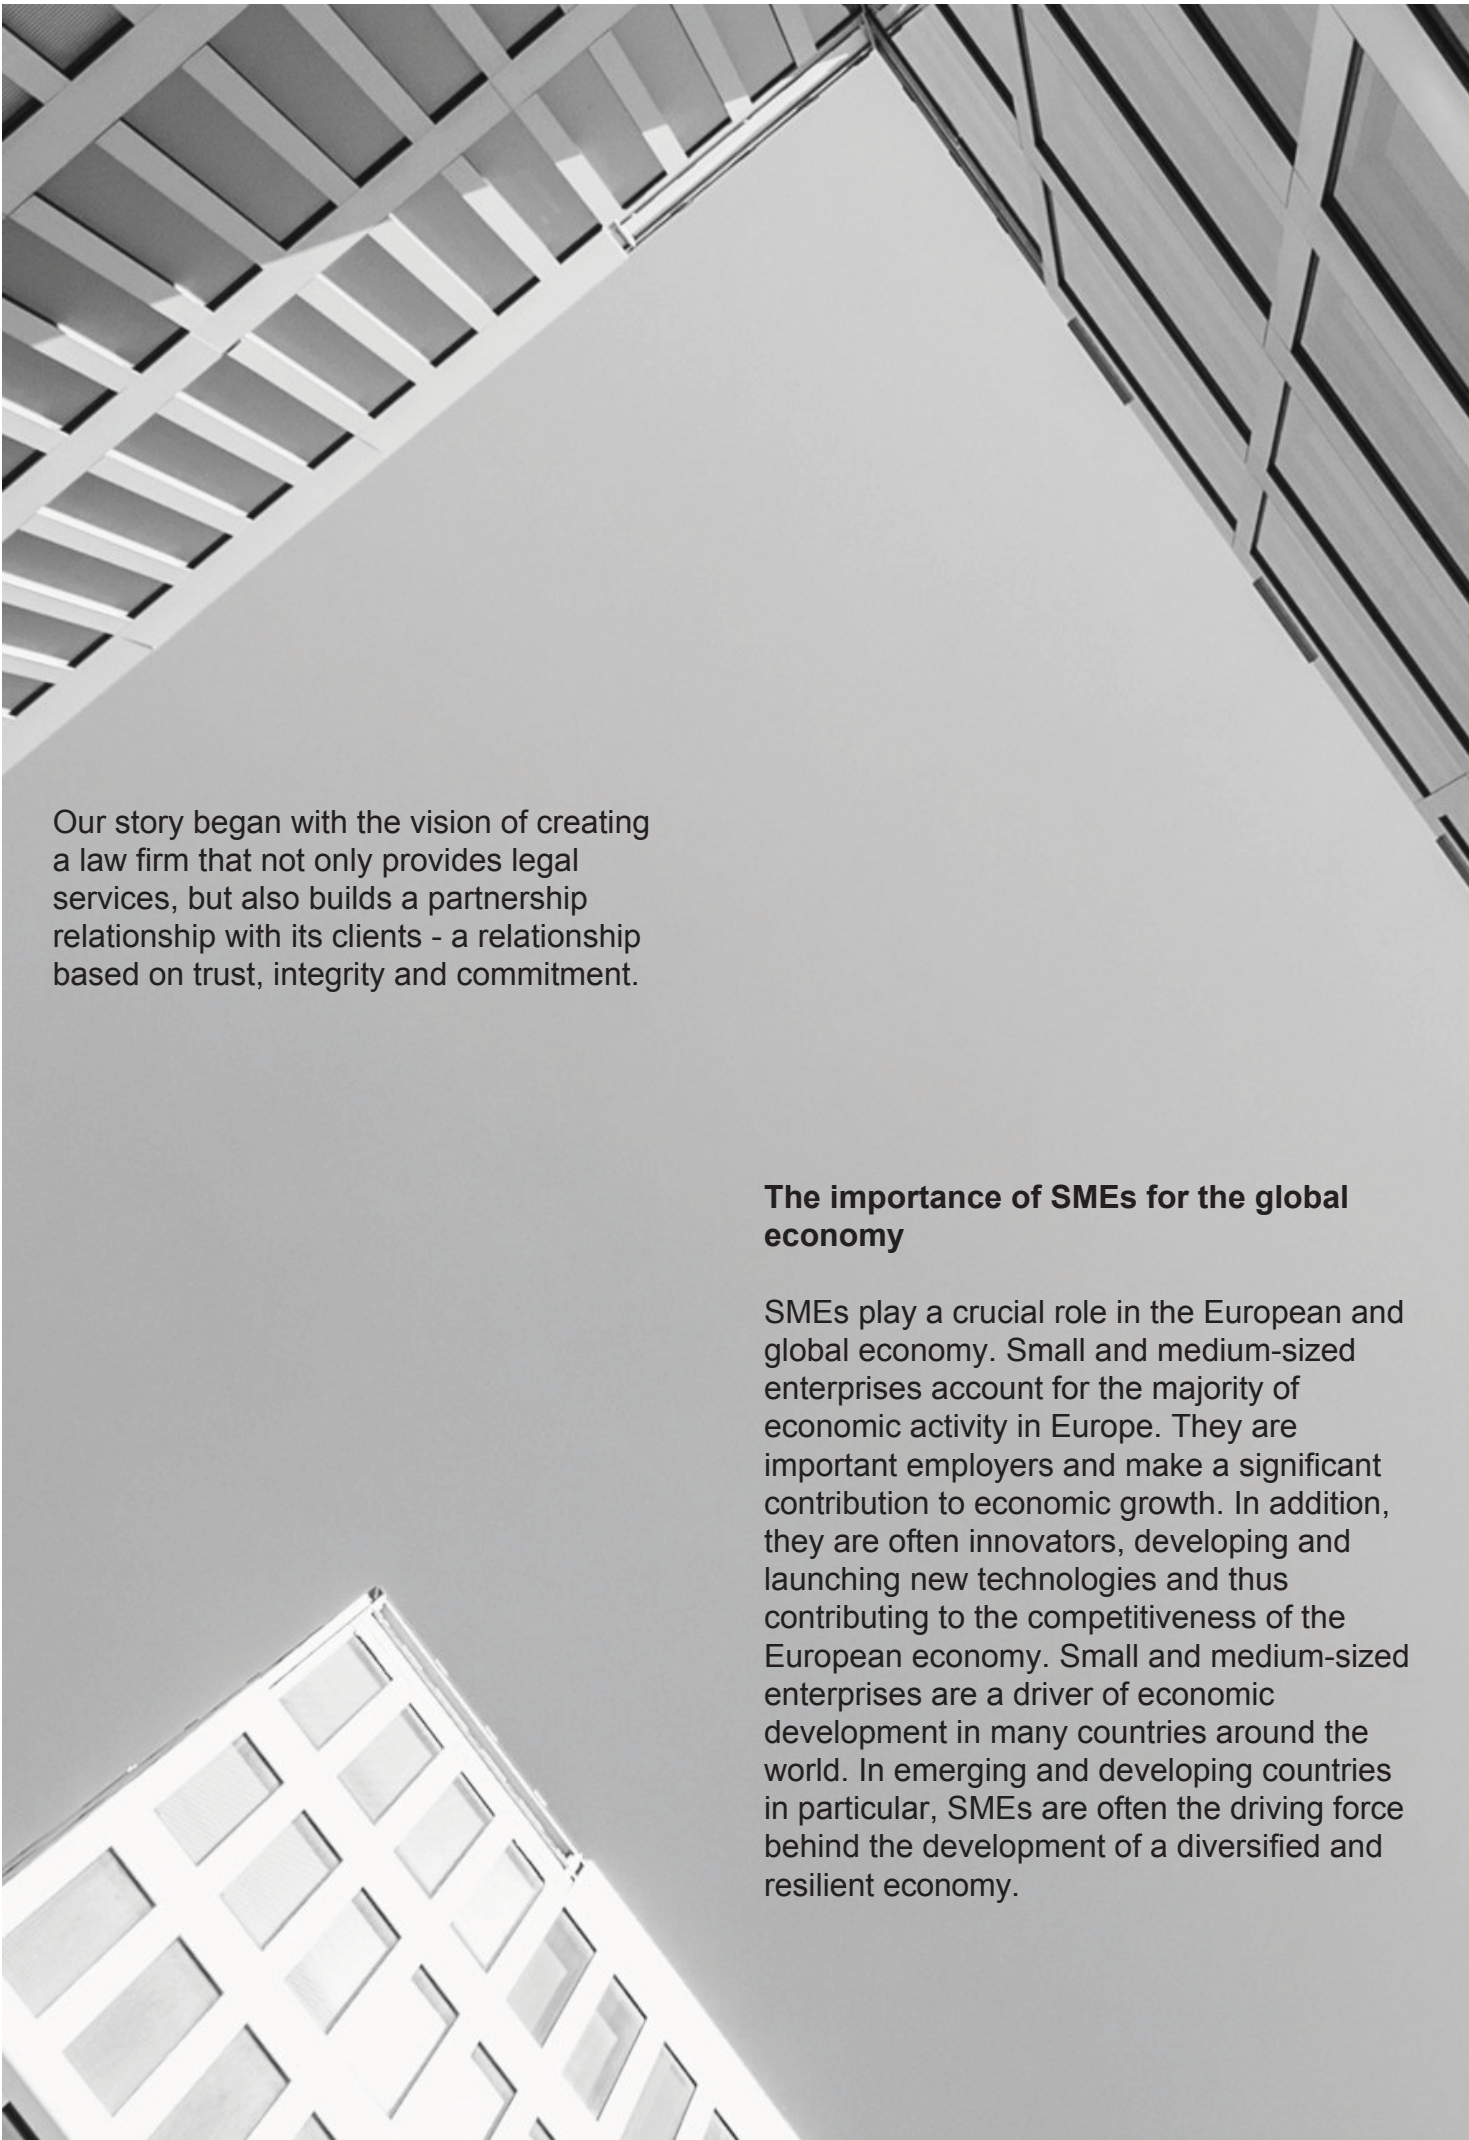

Global SMEs.
Trusted support.

In a dynamic economic environment, oikon offers medium-sized companies a stable foundation and stands for reliability in a constantly changing environment.

"...When I found myself in a new business area that had both tax and cross-border corporate law implications, Thomas Sasse and his team were my reliable partners who supported and encouraged me at all levels during the transaction."

*Ralf Rüller,
Managing Director of The Barn Coffee Roasters Berlin*

Our story began with the vision of creating a law firm that not only provides legal services, but also builds a partnership relationship with its clients - a relationship based on trust, integrity and commitment.

The importance of SMEs for the global economy

SMEs play a crucial role in the European and global economy. Small and medium-sized enterprises account for the majority of economic activity in Europe. They are important employers and make a significant contribution to economic growth. In addition, they are often innovators, developing and launching new technologies and thus contributing to the competitiveness of the European economy. Small and medium-sized enterprises are a driver of economic development in many countries around the world. In emerging and developing countries in particular, SMEs are often the driving force behind the development of a diversified and resilient economy.

Due to their size, structure and market position, SMEs often face different challenges than large companies.

"... Managing a family business is a demanding task that requires heart, mind and expertise. It is one of the greatest challenges for us entrepreneurs and our families. Our lifelong commitment and passion are deeply rooted in our identity, which is closely linked to the work we have built. Thanks to oikon Law, we have a valuable support that has prepared us excellently for the challenges of the future."

*Marc Rieppel,
Managing Director Eibsee Hotel GmbH*

Since our foundation, we have developed into a law firm that specializes in advising global market leaders - export-oriented medium-sized companies that generate more than half of their turnover abroad. As a result of this expertise, we have a comprehensive understanding of the specific needs and challenges of medium-sized companies at national and international level.

Trust as the basis for business

Personal relationships and trust are often crucial to the success of a company, especially in the SME sector. Trust is a communicative phenomenon, as it is closely linked to the way people communicate and interact with each other. Communication plays an essential role in developing and maintaining trust between individuals, groups or organizations.

**We firmly believe that trust is
the basis for successful
business.**

**The latest findings in
behavioral economics
underpin this conviction.**

*"...oikon LAW and Ms.
Tönies-Bambalska are our
strong partner in all
international legal matters.
Our relationship is characterized
by unconditional trust and many
years of expertise in a wide
range of areas."*

*Dragomir Dimitrov, Consul
General of the Republic of
Bulgaria in Munich*

A low-angle, upward-looking photograph of several modern skyscrapers with glass facades. The buildings are positioned at different angles, creating a sense of height and architectural scale. The sky is a pale, overcast blue-grey. The text is overlaid on the left side of the image.

In a globalized world, intercultural communication is essential for the success of a company.

At oikon Law, we specialize in this skill and have put together a team of lawyers who not only have legal expertise, but also a deep understanding of the cultural nuances of different countries and regions.

We see ourselves not just as lawyers, but as partners to our clients. While our clients are often in the spotlight, we create the legal conditions for their success in the background. We are the silent architects of trust who ensure that every transaction is based on a solid legal foundation and that the interests of all parties involved are protected.

As a reliable partner, we not only consistently support our customers, but also actively pass on our knowledge and experience.

Self-determination is one of the most important values to which we are committed.

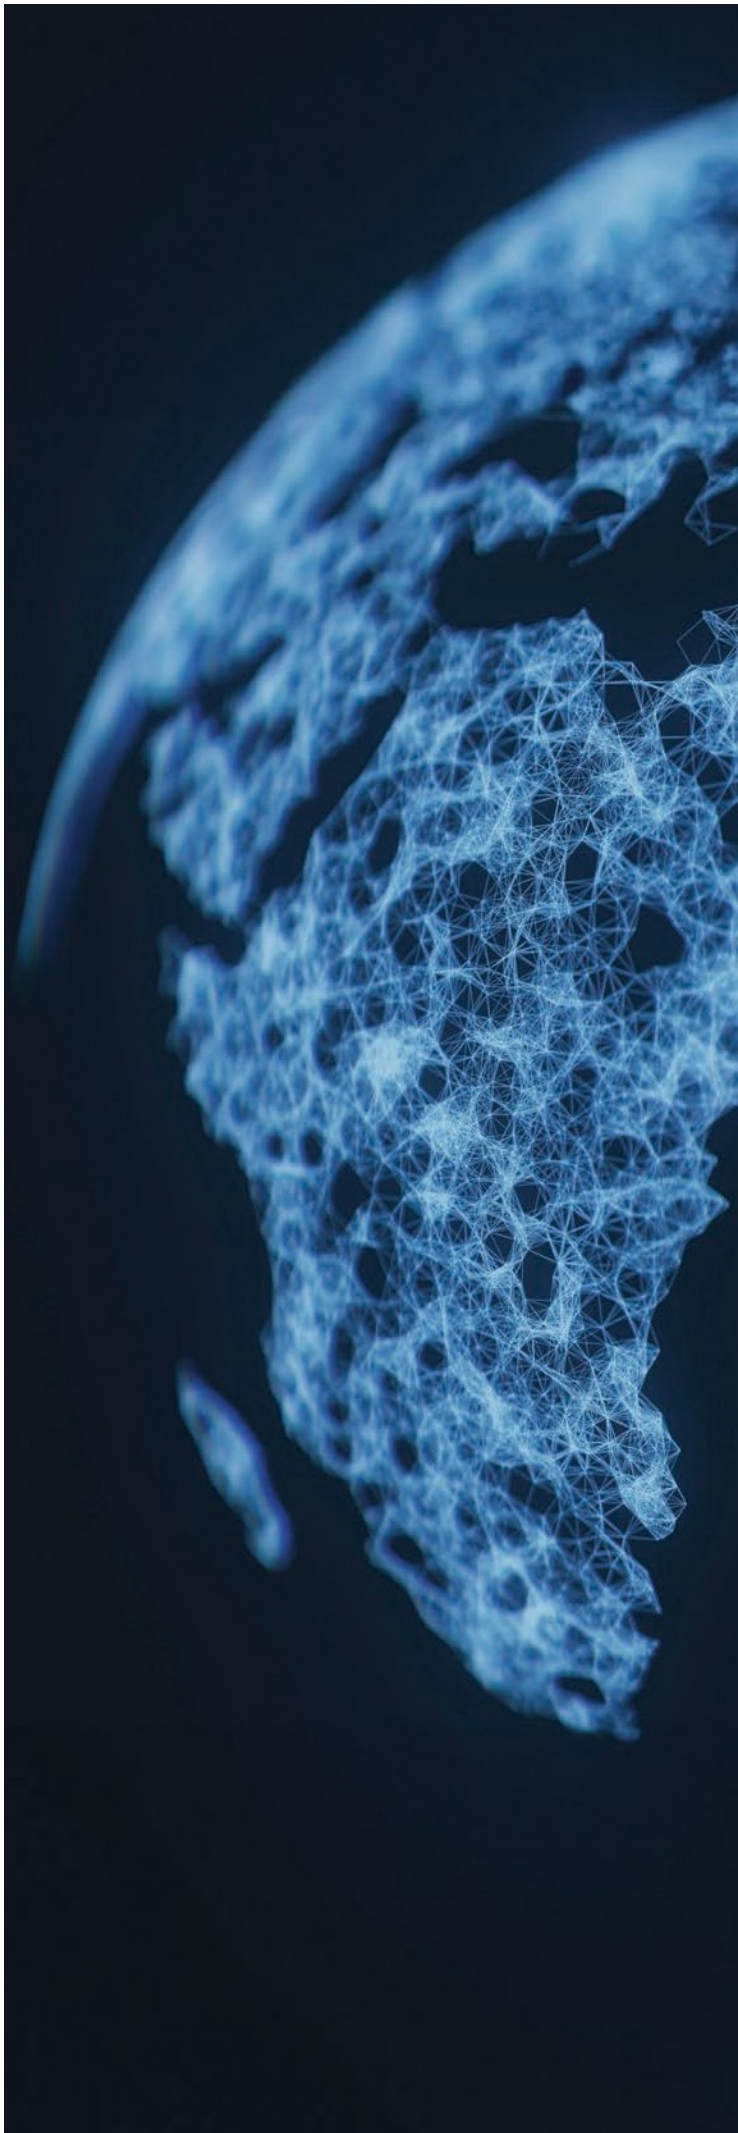

"...with its outstanding expertise and experience in India, oikon has always supported us as part of our management team with crucial information about the Indian market and excellent know-how about the culture of the Indian joint venture partner..."

*Markus Bergmann, CFO of
the Wanzl Group*

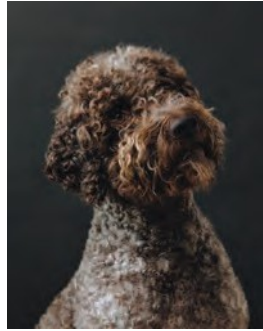

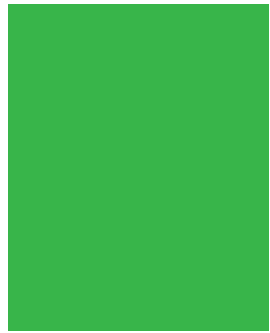

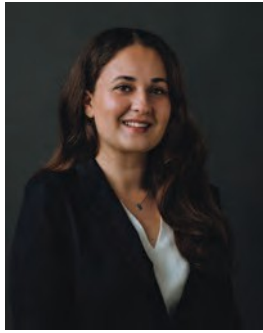

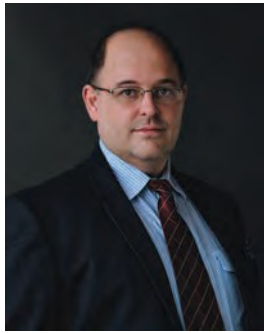

GLOBAL PRESENCE
